Product Description

This 3290-series of adjustable leg levelers provides our most robust solution to final adjustment during installation. We have two types of head and a plinth clip as options. It comes bulk packaged for your convenience. With a heavy duty load capacity of 200 kg per leg or 800 kg per 4 legs, we recommend using spacing of 60 to 80 cm between legs.

Product Advantages

- High Load Capacity
- Largest Adjustment Range
- Production Package
- 4 1/2 - 6 inch Height Adjustment
