Product Description

3M™ E-A-R™ Classic™ corded earplugs set the standard in hearing protection as the world's first foam earplugs. Constructed from slow-recovery foam, these disposable earplugs are uniquely moisture-resistant.

Product Advantages

- Poly bag keeps each pair of disposable earplugs available or accessible for re-use
- Flame-resistant and moisture-resistant
- Corded for easy short term storage around the neck
- Noise Reduction Rating (NRR)*: 29 dB. CSA Class AL
- Test compatible with 3M™ E-A-Rfit™ Validation System

Technical Documents

3M™ E-A-R™ Classic™ Earplugs

Leading the Advancement of Hearing Conservation™

Classic earplugs were the industry's first foam earplug—virtually revolutionizing hearing protection. Today, the revolution continues. The Classic product line has been expanded to meet more wearer and environmental needs with its proprietary foams, preferred cylindrical shape, and proven in-ear comfort.
