Product Description

The built-in handle for sliding doors, Clos has a hidden handle that facilitates the sliding mechanism of the door. It works so easily, just by pressing the upper part, the handle then opens automatically. It is perfect for doors and cupboards of rooms with limited space and it is also perfect for furniture with a "coplanar" mechanism. It can also be fitted to the face of the sliding door to make it easier to open. It is manufactured in zamak. Available in finishes including matt white, matt black, bright chrome and brushed black.
