| Material | Zinc + Acrylic |
| Mounting Type | M4 Machine Screw |
| Projection (Height) | 32 mm |
| Style Family | Designer |

Product Description

Is it possible for a small knob to add character to a piece of furniture? If we're talking about the Prost model, then the answer must be yes! Manufactured in zinc zamak and acrylic and available in 2 different colours (white, black), Prost is a knob full of personality that really makes the difference. It's profile reminds us of a funnel with a chrome polished bottom. Through the head, made in zamak, square-shaped and with rounded edges, it's possible to see a circle of colour in its interior. The appearance of this circle creates an interesting game of dimensions between the knob and the furniture. It's small and manageable and has a length of 32mm and a width of 33mm.

Prost belongs to the [Zamak and Acrylic](#) line. Viefé Model # [0101](#).
Designed by the Viefé® team.
