Hinge Door Drilling Distance	3-6 mm
Hinge Door Thickness	18-28 mm
Hinge Type	Clip-On
Material	Steel
Mounting Type	Screw-On
Plate Type	Compatible with DTC Pivot Star C81 Soft-Close Plates only

Product Description

The C-81 Pivot Star is a brand new premium soft-close hinge from DTC. Winner of a 2017 iF Design Award for ground-breaking furniture hardware design. The stepless soft-close adjustment is done via cam adjustment on the hinge arm, meaning it is easily reachable after door is installed. Improved linkages inside the hinge improve the functioning so that a reduced amount of force is necessary to open the door, despite the increase in resistance during the longer soft-close stroke.

Product Advantages

- Adjustable Soft-Close Speed
- Reduced pull force means Easy-Open doors

Important Information

C-81 Hinges are only compatible with C-81 mounting plates. Not compatible with previous generation soft-close mounting plates.
