

Waterstop silver

Part Number: 04-WSMAT-SIL

Waterstop Undersink Drip Tray, Silver

The Waterstop removable drip tray is specially designed to protect the bottom of undersink kitchen cabinets and bathroom vanities.

Application Type	Undersink Protection
Depth	580 mm
Finish	Silver Grey
Width	1200 mm

Product Description

The Waterstop removable drip tray is specially designed to protect the bottom of undersink kitchen cabinets and bathroom vanities. The hollows of the easy-to-clean polystyrene mat can hold up to 3 litres of water per square metre, protecting melamine surfaces from becoming saturated, swelling and eventually breaking down due to leaking pipes, fittings, or cleaning agents. Sold separately is a flexible sealing profile which should be mounted on three sides to provide additional protection.

Product Advantages

- Available in two colours: Dark Grey & Silver
- Large dimension (580 x 1200mm) to be cut to size for any cabinet
- Protects up to 3 litres per square metre (0.28L per sqft)
