### Product Description

The Bol knob transmits a new decorative concept based on harmony and warmth. Its design is based around a subtle shank in zamak, like a kind of flower in the shape of a bowl filled with natural beech wood or white enamel and natural sapelli. Its smooth shape allows you to create surroundings full of personality thanks to the organic materials used in its manufacture. The Bol collection, designed by Balutto Associati, goes beyond being simply a knob, moving into the world of wall hooks so allowing for an infinite number of combinations on walls, doors and drawers in homes and offices.

### Included Products

Industry standard mounting hardware
