Width	-----	50 mm

Product Description

Fin is a wall hook made in zamak that is characterized by its unique personality. With a markedly retro design from the Viefe® Team, Fin is fixed onto walls using either screws or an adhesive. It's a hanger with perspective as it changes radically depending on how you look at it from either the front or the side. It's circular base contrasts with an adjoining part in a square shape which ensures a perfect grip on all types of garments and other accessories. Its minimalist aesthetic is perfect for bathrooms and rooms with smaller dimensions where the need to hang things on the walls is essential.
