

KIT SYNCRO PUSH F70

Part Number: SAPKF7X51150

Salice Progressa+ Push Synchronizer Kit

Push synchronizer for Salice Progressa+

Slide Extension Type -----	Full Extension
Slide Type -----	Undermount

Product Description

The synchronization system for Push to Open Salice Progressa+ runners has been developed to ensure that wider drawers can be opened with minimum effort. The system links the two runners, which then become a single element; applying pressure on any part of the drawer front (even at the extremities), is sufficient for the Push devices to release and consequently for the drawer to open. The synchronization can be used with any drawer width; its functionality is at its best with drawers wider than 762 mm (30"). **PRODUCT FEATURES:** - frameless or blocked out face frame applications - smooth running action - load capacity of the runner remains unchanged - available on any Progressa+ drawer length - minimum opening (X) = 280 mm - maximum opening (X) = 1305 mm - bar length = 1150 cut to size

PACKAGING Box = 20 single kits

1 KIT CONTAINS:

- 1 stabilizer bar
- 2 driver pins
- 2 carrier plates

Product Advantages

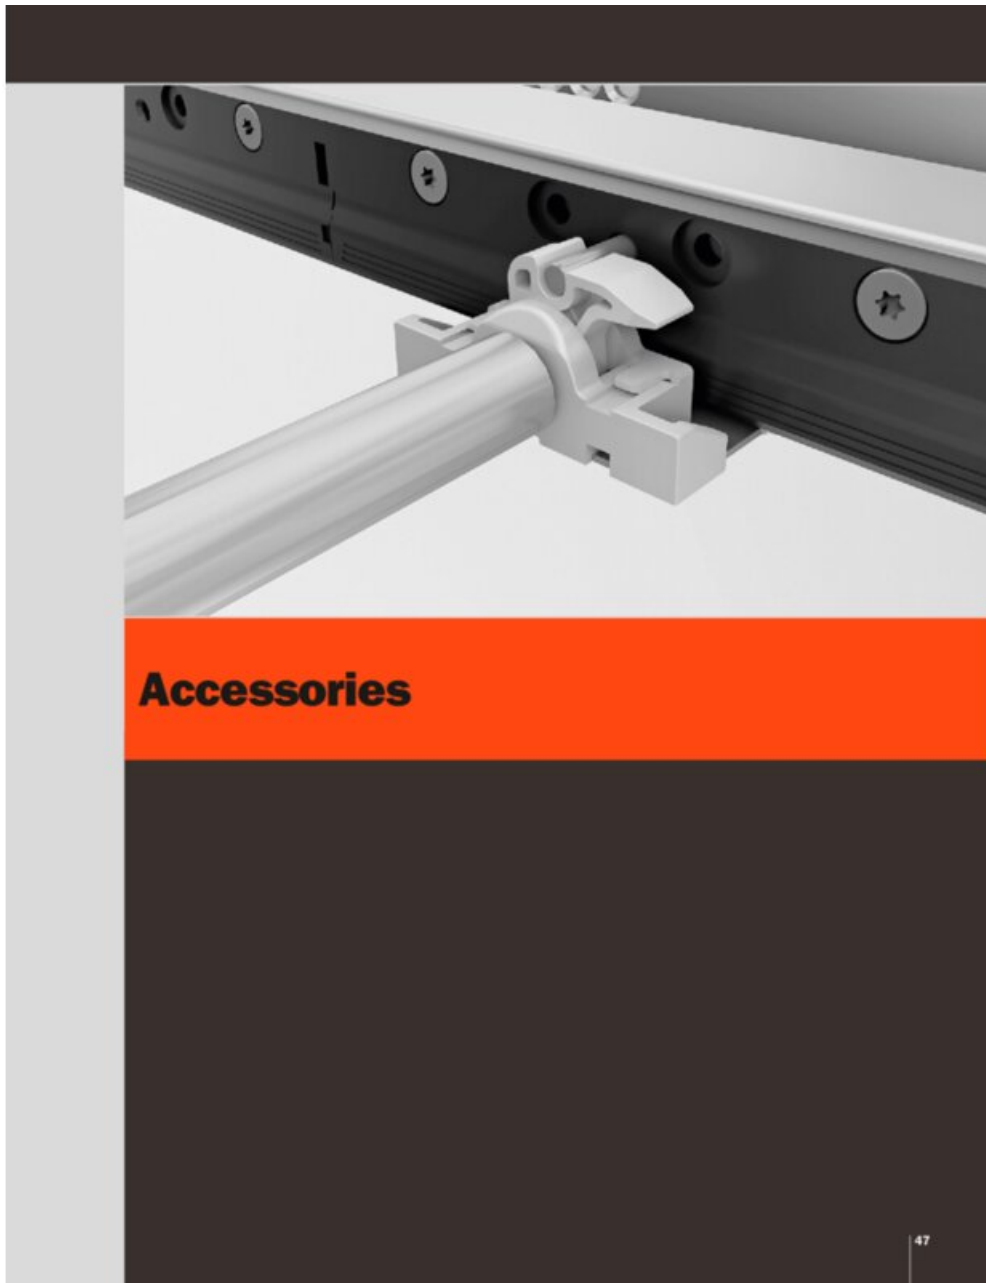

- Frameless or blocked out face frame applications
- Smooth running action
- Load capacity of the runner remains unchanged
- Available on any Progressa+ drawer length
- Minimum opening (X) = 280 mm
- Maximum opening (X) = 1305 mm
- Bar length = 1150 cut to size

Disclaimer

Salice Undermount Slides do NOT include front locking clips. These must be ordered separately.
