Technical Documents

M-Series Tip Out Tray Hinges

Product Features

The M-Series tip out hinge is a cold pressed steel and zinc plated specialty hinge for undersink false drawer fronts.

Combine the tip out hinge with the M-Series tip out tray to create a handy storage space for cloths, sponges, and other small cleaning products.

- Soft-close
- Limited Lifetime Warranty
- Lateral installation

M-Series Tip Out Tray Hinges (Parts List)

- Pair of tip out tray hinges
- 8 x screws

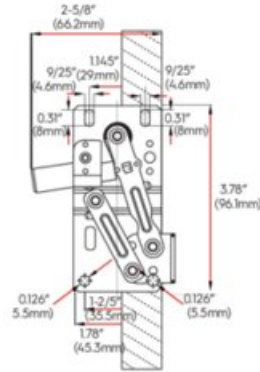

Hinge Installation in a Face Frame Cabinet

Step #1: Hinge plate mounts flush to the front and bottom edge of the cabinet opening. 2-5/8" of depth clearance is needed to fit the soft-close.

Step #2: Mark hole locations and pre-drill 1/8" diameter holes x 3/4" deep.

Step #3. Use two flat headed screws to attach each hinge plate to face frame.
