

## Target J10/J12 drilling jig

**Part Number: IFY0JG0100RO**

Target J10/J12 Drilling Jig

Target J10 / J12 drilling jig for panel thicknesses of 16mm, 18mm and 19mm.

### Product Description

The Target J12 is a versatile, high-capacity structural fitting specifically designed for cabinet installations in tight spaces. Its compact yet robust design allows for seamless pre-assembly without interfering with packaging, making it an ideal choice for efficient production and assembly lines. A key feature is its through-passing hole, which enables easy access for leveler adjustments using an Allen wrench, ensuring precise alignment even after installation. Whether you're working in confined areas or on complex furniture systems, the Target J12 delivers reliability, strength, and ease of use to streamline your project from start to finish.
