

Libra CH profile element cut to size

Part Number: IF6400744100

Libra CH Profile Element, Cut to Size

The fully customizable LIBRA CH profile for hanging cabinets.

Product Description

The LIBRA CH is an advanced hanging solution designed to complement standard cabinet hangers, making it perfect for heavy or deep wall-mounted cabinets. It features a mechanical sledge that allows for smooth vertical and in-depth adjustments, ensuring precise alignment and easy modifications. The innovative design includes a patented anti-turnover device, adding an extra layer of stability and preventing any unwanted shifting. Additionally, it seamlessly adapts to side hanger adjustments, making it highly versatile and reliable for various installations, whether in kitchens, bathrooms, or commercial spaces.

Product Advantages

- Top element pre-assembled.
- Total length: 737mm. Can be cut to a custom length (less than 737mm) for your application.
- Multiple hanging points, facilitates even load distribution, ensures stability.
- An anti-turnover locking screw securely fastens the cabinet to the wall.
- Can be mounted with optional aluminum bars to evenly distribute the weight, reducing stress on the wall.

Important Information

Factory pre-installed included the top mounting hardware and a cut-to-size aluminum profile.
